boop

Every time you place a kitten on the bed, it goes "boop." Which is to say that it pushes every other kitten next to it on the board one space away. Line up three kittens in a row to graduate them into cats... and then, get three cats in a row to win.

But that isn't easy with both you AND your opponent constantly "booping" kittens around.

It's like... **herding cats!**

Can you "boop" your cats into position to win? Or will you just get "booped" right off the bed?

*A deceptively cute, deceptively challenging abstract strategy game for two players.*

# THIS GAME IS KILLER

**A Hilariously Deadly Party Game for 3-10**

## ALIEN ON BOARD

A hilariously deadly party game about being hunted by an alien lifeform aboard a cramped cargo vessel in deep space. The object is simple: Try to survive at any cost – and remove the alien threat before it kills you all. Each round you will play just two cards, both a Position on the ship and an Action you will take. Will your attempts to contain the alien put others at risk? The alien's Location is then revealed and players die. If you're lucky, the alien is cornered & killed, with the surviving crew members winning the game.

- Semi Coop game where many can win, but killing the alien may endanger crew members as well.
- Death comes quickly in this game – and ten minutes later, you are all jumping back in to play again.
- Simple rules make for a perfect party game. **Play two cards and see who's dead.**

You can roll like garbage and **STILL** be a hero - because this isn't your ordinary role-play dungeon crawler, it's a party weight guessing game, where the players provide a clue about how well or poorly they rolled by giving a description of what happens to their character in the scenario! The closer the GM (Guess Master) is to the number you rolled, the more experience points the party receives. Each player adds to the developing tale as the adventurers face monsters and attempt heroic deeds in a classic fantasy role-playing world.

- Rolling a "20" is heroic. Rolling a "1" is *hilarious* as you describe just how badly things go. Every roll makes for an amazing adventure and wonderfully memorable play!

- Appeals to board gamers, role-players and serves as a great introduction to role-playing with rules that can be learned in two minutes.

*A cooperative, party-weight, guessing game that delivers a robust role-playing experience.*

# The Night Cage

The Night Cage is a cooperative, horror-themed tile placement game that traps 1-5 lost souls within an otherworldly labyrinth of eternal darkness. Equipped with nothing but dim candles, you must work together to explore the maze and escape.

The weak glow of your candle sheds light on only a small area of the maze at a time. As players move, new pathways are revealed while old ones disappear forever into the darkness, creating an ever-changing board that requires strategy to navigate.

- Deeply thematic, co-op horror game that stays tense until the final flickers of your candlelight.
- DIZED tutorial and 50 minute soundtrack available. Link in rules.
- An in-box Advanced Game features new monsters and challenges to ramp up difficulty and replay.

# The Night Cage: Shrieking Hollow

This expansion contains new threats, discoveries and a new board to explore, adding even more dread to our tile laying horror game. Pits now connect Prisoners to the Hollow, where The Other lies in wait, a monster with the ability to smother half the board in darkness. Over the course of play, The Other will rise up out of the Hollow and attack the Prisoners, destroying any part of the maze it encounters.

If the Prisoners are brave, they can leap into a Pit and fall to the bottom of the Hollow where the dim light of their candles will hold its advance, temporarily. However, they can't hold it back forever.

- BASE GAME REQUIRED TO PLAY
- New side board to explore, more advanced monsters and new mechanics.
- Delivers a visceral, "OMG" reaction as the players understand the new threat of The OTHER.
- New event-style tiles and cards offer new strategies - at a cost, stimulating more cooperative discussion amongst players.

**SHOBU is a beautifully conceived & crafted abstract strategy game for two players.**

You play on all four natural wood boards at the same time and each of your turns is in two parts.

1. Move one of your stones up to two spaces in any direction, including diagonally.
2. Match that move, in the same direction and number of spaces on the opposite color board. This second move allows you to push an opponent's stone across or off the edge.
3. Remove all four of your opponent's stones from just ONE of the four boards to win.

- SHOBU is made of beautiful, natural elements. Wood boards, a rope divider, & river stones as playing pieces, giving it incredible table appeal.
- Taught in one minute, it plays simply, and then 10 minutes later, you realize the game has the depth of 3-D chess.
- Instantly familiar, yet completely unique to play. Feels like it has stood the test of time.
